STATEMENT FROM THE ORGANISING COMMITTEE

The members of the Organising Committee of the Zambian government and the Management and Staff of AME Trade Ltd would like to express their profound appreciation and gratitude to all who participated in the 10th Zambia International Mining and Energy Conference and Exhibition (ZIMEC 2022) held from the 1st to the 3rd of November at the Garden Court Hotel in Kitwe, Zambia.

Without your material, operational and financial support, we would not have been able to make the event happen and achieve the level of success attained at the conference especially as it made its full post Covid pandemic comeback and celebrated its 10th edition.

The 2022 edition was held under the theme “The synergy between mining and energy: Developing sufficient sustainable energy to satisfy Zambia’s mineral production goals” and it was officially opened by Honourable Paul Chanda Kabuswe, Minister of Mines and Minerals Development, who represented His Excellency Hakainde Hichilema, President of the Republic of Zambia.

ZIMEC is the representation of the long-standing commitment of AMETrade to promote the energy and mining sectors in Zambia. We were delighted that this year’s conference played host to over 300 participating delegates and exhibitors from over 17 countries and included 90 esteemed industry speakers for 2 days of intense debate and high-level networking.

A special thank you to our sponsors and supporting partners including the Ministry of Mines and Minerals Development, Ministry of Energy, Zambia Chamber of Mines, Kitwe Chamber of Commerce, Association of Zambian Mineral Exploration Companies, Konkola Copper Mines Plc, First Quantum Minerals Limited, Copperbelt Energy, Lubambe Copper Mine Limited, Mopani Copper Mines, Tanzania Ports Authority, Gov-iEx Uranium, Kagem Mining, Vivo Energy, TotalEnergies, Stanbic Bank, Metso Outotec, Medland Hospital, Standard Chartered and Puma Energy.

We hope you enjoyed the event as much as we did, and that you managed to take the opportunity to connect through the networking opportunities that were available on the event app, Whova.

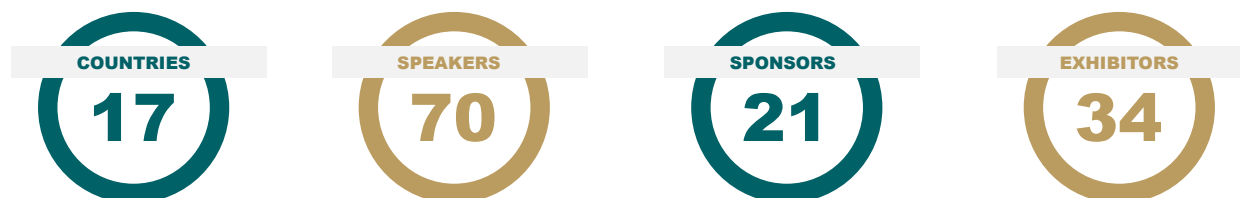

As always, we welcome your feedback on the event, so we can continue to improve our services to you, our valued clients. Feedback can be sent via the app or email us on events@ametrade.org, with your comments and suggestions.

We look forward to seeing you at the next edition of the Zambia International Mining and Energy Conference and Exhibition, which will take place from 1 – 2 November 2023 in Kitwe, Zambia, where we will continue to bring you the latest industry developments.

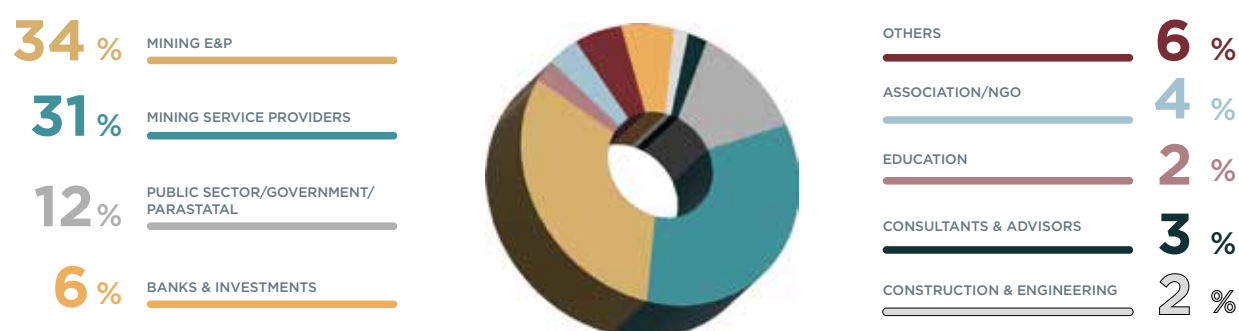

Thank you!

SUMMARY OF THE 10TH ZIMEC RECOMMENDATIONS

- Enhanced collaboration between the Government and Stakeholders in both the Mining and Energy sectors leading to increased productivity
- Stakeholders to support the Government to accelerate efforts aimed at revamping the mining industry especially on the Copperbelt, while the Government endeavours to curb detrimental illegal dealings and trade in the copper and emerald mining sectors that continue to compromise standards and promote price challenges.
- Government to continue providing incentives in both the mining and energy sectors to foster investment for sustainable production that will facilitate the 3 million metric ton of annual copper production in 10 years as well as the projected power demand of about 10,000 megawatts.
- Stakeholders noted the need for the Government to consider altering existing laws in the energy sector, mineral tax regime and in the emerald mining to encourage investment and only allow holders to export rough emeralds.
- Transparency to be adopted by all energy players and the mines by submitting the G-Factor for natural resources.
- Local suppliers and contractors to be prioritized in the business supply chain while host communities' must get benefits from all mining investments through CSR and job creation.
- There is urgent need to develop a separate tax regime for the small- scale and artisanal mining for the steady growth of the sector.

Industrial players from 20 countries at ZIMEC

By KENNEDY MUPESENI
MORE than 250 delegates and 30 exhibitors from 20 countries in Africa and abroad have confirmed participation in the 10th Zambia International Mining and Energy Conference (ZIMEC 2022) which starts today in Kitwe.

A check at the Edgar Chagwa Mall in Kitwe, the venue for ZIMEC, showed companies putting up their exhibition stands as security checks intensified.

The 10th edition will take place from today to Thursday and will offer an opportunity for industrial players to showcase their products and services especially in the area of

mining and energy.

This year's event theme is, "The synergy between mining and energy: Developing sufficient sustainable energy to satisfy Zambia's mineral production goals".

ZIMEC 2022 brings together all mining and energy stakeholders to have open discussions about challenges, new opportunities and to work towards strengthening the industry in Zambia and surrounding countries.

Keynote speakers at the conference would include Energy Minister Peter Kapala, Mines and Mineral Development Minister Paul Kabuswe and Kitwe District

Chamber of Commerce and Industry president Emmanuel Mbambiko.

Others are Zambia Chamber of Mines (ZCM) president Godwin Beene, ZCM chief executive officer Sokwani Chilembo, Energy Regulation Board (ERB) director general Yohane Mukabe and Association for Zambian Women in Mining (AZWIM) president Grace Njapau, among a long list of speakers.

Zambia Association of Manufacturers (ZAM) board member Martin Mutono is optimistic today's event, the first to be held on the Copperbelt, would be worthwhile.

YOUR OPPORTUNITY TO NETWORK WITH LEADING STAKEHOLDERS ACROSS EUROPE PURSUING HOT COMMODITIES IN AFRICA'S HOTSPOTS

After a small hiatus, the 6th MOTA is back. This industry event takes place on the 7th & 8th of July 2023 in the host city of Paris. The conference is a strategic forum for the Leading stakeholders across Europe to connect with mineral and metal exploration companies from Africa, to drive collaboration and partnerships for sustainable mining across the continent.

The event will tackle some of the key challenges that strategic and financial partners face when investing in Africa's

mining industry. The event connects mining and exploration companies, Government representatives, and investors to drive further investment in mining activities on the continent. This event is the meeting place for government officials looking for in-country investment, investors including mining majors looking for new projects, and explorers looking to raise capital.

The event has historically welcomed over 200 participants from over 20 countries including investment hotspots. This year,

the event will take place in France and will welcome further participation from African governments and their strategic partners so they can connect and network with the industry.

The event provides a unique opportunity for industry executives to meet and network, engage with media, raise finance, invest in projects, and generally engage with the resources sector at an executive level in a mining community setting while furthering Europe's investment interest in Africa mining.
